Appendix I at pp. 1501A-594-1501A-598 (1999), codified at 47 U.S.C. 336(f), was enacted. That legislation provided that a low power television (LPTV) licensee should be permitted to convert the secondary status of its station to the new Class A status, provided it can satisfy certain statutorily-established criteria by January 28, 2000. The CBPA directs that Class A licensees be subject to the same license terms and renewal standards as full-power television licenses and that Class A licensees be accorded primary status as television broadcasters as long as they continue to meet the requirements set forth in the statute for a qualifying low power station.

For those stations that met the certification deadline, the CBPA sets out certain certification procedures, prescribes the criteria to maintain a Class A license, and outlines the interference protection Class A stations must provide to analog, digital, LPTV and TV translator stations.

The CBPA directs that Class A stations must comply with the operating requirements for full-service television broadcast stations in order to maintain Class A status. Therefore, beginning on the date of its application for a Class A license and thereafter, a station must be “in compliance” with the Commission's operating rules for full-service television stations, contained in 47 CFR part 73.

**Needs and Uses:** The Commission adopted the Contest Rule in 1976 to address concerns about the manner in which broadcast stations were conducting contests over the air. The Contest Rule generally requires stations to broadcast material contest terms fully and accurately the first time the audience is told how to participate in a contest, and periodically thereafter. In addition, stations must conduct contests substantially as announced. These information collection requirements are necessary to ensure that broadcast licensees conduct contests with due regard for the public interest.

The Contest Rule permit broadcasters to meet their obligation to disclose contest material terms on an internet website in lieu of making broadcast announcements. Under the amended Contest Rule, broadcasters are required to (i) announce the relevant internet website address on air the first time the audience is told about the contest and periodically thereafter; (ii) disclose the material contest terms fully and accurately on a publicly accessible internet website, establishing a link or tab to such terms through a link or tab on the announced website's home page, and ensure that any material terms disclosed on such a website conform in all substantive respects to those mentioned over the air; (iii) maintain contest material terms online for at least thirty days after the contest has ended; and (v) announce on air that the material

terms of a contest have changed (where that is the case) within 24 hours of the change in terms on a website, and periodically thereafter, and to direct consumers to the website to review the changes.
